

Tips & Tricks

How to Search for a Listing Using the Map

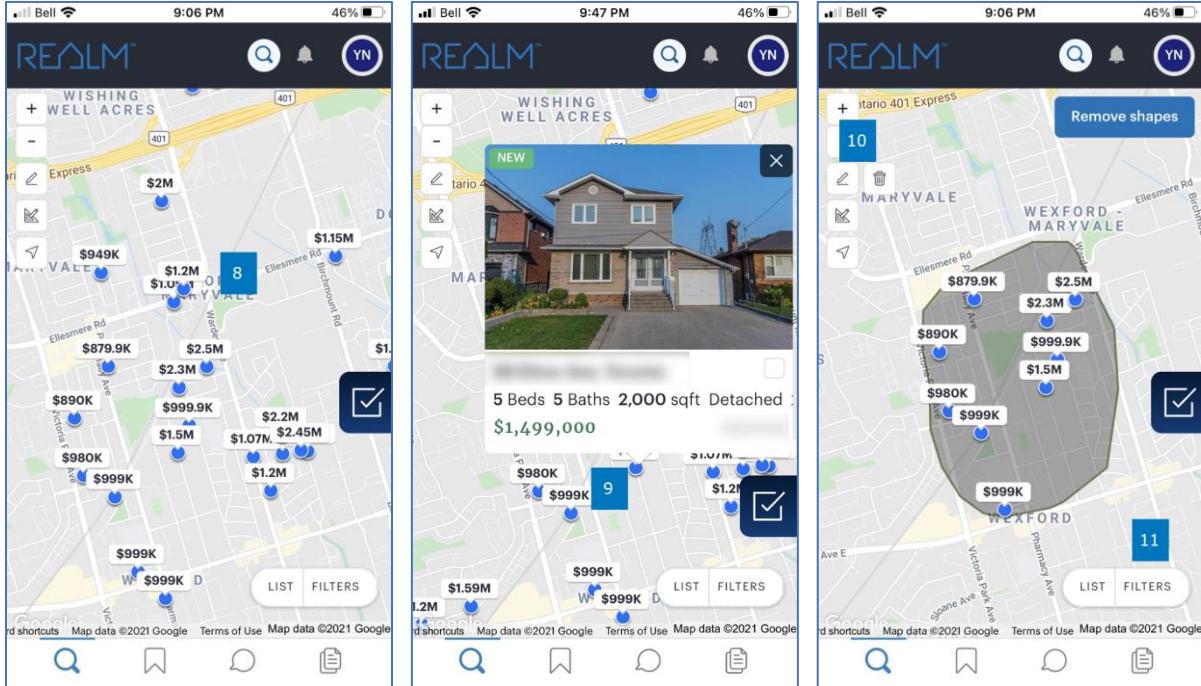

In REALM you can search for listings using the map. To search with the map:

1. Select the **search icon**  from the menu at the bottom of the window.
2. Select the **map icon**  on the bottom right and the map will open.
3. On the left side of the map, there is a **zoom in (+ icon)** and **zoom out (- icon)** to adjust the zoom level.
4. You can also use your fingers or stylus to adjust the screen left or right and to zoom in or out.
5. If location setting is enabled on your device select the **show your current location icon**  and the map window will go to your location.
6. If no listings are close to your location, select the **map icon**  and zoom out on the map until listings are shown.
7. On the map window listings will be identified by a **blue dot**.

8. At a closer zoom level, you will see a callout with the listings price.
9. If you select a listing callout a window will open with a summary of the listings.
10. You can define an area using a continuous draw tool. Select the **continuous draw icon**  and draw around the desired area. Select the **garbage can icon**  to remove the drawing.

11. To adjust the search results with specific criteria, select **Filters** and window will open where you can enter the desired search criteria.
12. Select **Apply** and you will be directed to the map window where you will see a blue dot or callout (depending on the zoom level) for listings that match the criteria.
