How to Open a Saved Search

If you have saved a search in REALM, you can easily recall it to review properties that match the search criteria.

To open a saved search in REALM:

1. Select **Saved** from the menu bar.

2. Select the Searches tab.

3. Select the desired saved search.

4. You will be directed to the search window and properties that match the criteria defined in the saved search will show on the screen.
