

Tips & Tricks

How to Search for a Listing Using the Map

In REALM you can search for listings using the map. To search with the map:

1. Select **Search** from the menu bar and a window will appear with listings on the left and a map on the right.
2. On the left side of the map, there is a **zoom in (+ icon)** and **zoom out (- icon)** that you can use to adjust the zoom level.
3. You can also use your mouse, trackpad, stylus, or fingers to adjust the screen left or right and to zoom in or out. As you adjust the map the listing results on the left will update.
4. If locations settings are enabled on your device select the **show your current location icon** and the map window will go to your location. Please note if no listings are close to your location, zoom out on the map until you find listings.
5. On the map window listings will be identified by a **blue dot**.

6. At a closer zoom level, you will see a callout with the listings price.
7. If you hover over a listing result on the left side of the page the callout with the listing price will turn blue to help you identify the location of the listing.
